Utmost care will be taken to continuously review the curriculum in consultation with other educators, professionals and parents in order to ensure that changes in curriculum will pave the way for establishing a progressive and practical system

aimed at providing a purposeful educational career to the children at Blossom. In order to make the children computer friendly they are exposed to computer education from Std. I onwards with a professionally provided syllabus. Weekly Ice Breaking sessions are conducted to help the children overcome their shyness and to become bold and confident. A see-off session is conducted to conclude the day on a lively note and a child from each class is chosen by rotation to make a presentation on the public address system.
